Dear Mr. Zane:

I want to take this opportunity to personally thank you, Move LA, and the many community organizations and leaders who helped pass Measure R last fall. Measure R was an amazing victory that will help make Los Angeles a greener, more sustainable city with a more efficient transportation system. The construction, operation, and maintenance of new transportation systems will mean quality jobs that are sorely needed during these challenging economic times.

Your early commitment and leadership to push for more local investment in our transportation system was pivotal in getting over two-thirds of the voters – over two million people – to support Measure R. Your work to develop a broad coalition of business, environmental, and labor organizations backing Measure R was instrumental as well.

I cannot thank you enough for your impassioned and successful advocacy for a better transportation system and the key role of Move LA in the passage of Measure R. The residents, businesses, workers, and visitors to Los Angeles owe you and Move LA a deep debt of gratitude for your leadership and commitment. Thank you.

Very truly yours,

ANTONIO R. VILLARAIGOSA
Mayor
